At Mauer Solutions UK Ltd, we are committed to protecting the environment by conducting our activities responsibly and sustainably. We recognise that effective environmental management is essential to the long-term success of our business and to meeting the expectations of our customers, employees, and stakeholders.

We aim to minimise the environmental impact of our operations through responsible use of resources, prevention of pollution, and continuous improvement of our environmental performance.

Compliance and Responsibility

We are committed to complying with all relevant environmental legislation, regulations, and other applicable requirements. Environmental responsibility is shared across the organisation, with leadership providing direction and employees expected to support environmentally responsible practices in their daily work.

Environmental Management and Improvement

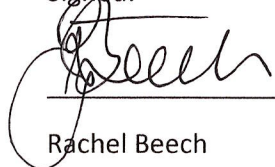

We will identify and manage environmental risks associated with our activities, including waste generation, energy use, emissions, and resource consumption. We will set objectives and monitor performance to drive continual improvement.

Awareness and Engagement

We will provide appropriate training, communication, and support to ensure employees understand their environmental responsibilities and contribute to sustainable practices.

This policy will be regularly reviewed to ensure it remains effective and aligned with business and environmental objectives.

Signed:

 Rachel Beech
 Operations Director
